

## **Millburn Audiology and Balance**

25 East Willow Street  
Suite B  
Millburn, New Jersey 07041  
973.564.8890

Dear Patient:

We are pleased to announce that **Millburn Physical Therapy and Millburn Audiology and Balance** have been Certified and selected by **The American Institute of Balance** as part of its prestigious *Worldwide Network of Vestibular and Equilibrium Specialists*. We will now be providing the most advanced evaluation and treatment for dizziness and balance problems for the areas physicians, insurance plans and their patients.

Did you know?

1. 90 million American will experience dizziness or balance problems some6time in their lives.
2. The National Institutes of Health has called dizziness and balance problems a national health care crisis.
3. **Dizziness is the #1 complaint of people over age 70.**
4. Dizziness is the #3 complaint told to physicians by all age groups only following headache and lower back pain.
5. Balance related falls is the leading cause of accidental death in people over age 65.
6. 85% dizziness and balance problems are related to chronic undetected and untreated inner ear conditions.
7. You don't have to "learn to live with it". New evaluation and treatments are now being used to help thousands of patients return to their normal lives.

We look forward to helping you, your family or friends who have been troubled by dizziness or balance problems. We will work closely with your physicians and medical specialists to be sure that you have the best care available. For more information or to schedule an appointment please call us at **973-564-8890**.

Sincerely,

Dr. Mark Goldfarb
